## **Queen of the Dead: Psychic Retreats and Anorexia**

with Kathryn Harrison and Melissa Daum

Anorexia touches down into every psychological diagnosis: trauma, hysteria, obsessive-compulsion, addition, sadomasochism, narcissism, body dysmorphia, perversion. Yet within this kaleidoscope of disorder, the anorexic patient has found, at last, a secret order, a religious order. This presentation offers an opportunity to venture into that silent center of anorexia -- a sanctuary space that promises at once salvation and dissolution.

Kathryn Harrison will present a personal history of the onset of her anorexia from adolescence, and Melissa Daum will draw upon psychoanalytic and Jungian theories to elaborate on themes of psychic retreats.
